How it Works

The Wireless Deer Fence

Product Description | [The Deer Problem](#) | [Safety](#) | [Deer Training](#) | [Weather](#) | [Competitors' Products](#)

The operation of the Wireless Deer Fence is based on deer behavior. Deer are creatures that live in a specific area with set travel paths. Once shocked by the Wireless Deer Fence, they change their living area and change their travel paths to avoid the area they associate with the negative experience. Deer are also herd animals. When one deer is shocked, the violent reaction scares deer nearby and they are also frightened from the area. When one deer is too frightened to enter the area, other deer will avoid it as well. Fear is a powerful motivator, especially for deer.

Product highlights

- Operates silently and efficiently with extended battery life—two years with 2 AA batteries
- Very economical. Protects an area for less than other alternatives.
- *Easy to deploy. Easy to remove. Easy to maintain.*
- Monthly maintenance simply involves refreshing attractant oil.
- Sweet-smelling, perfumed oil used as an attractant. Smells great!
- Field tested for more than two years with outstanding results.
- The Wireless Deer Fence works!

The Wireless Deer Fence works by affecting the deer's brain, not by containing its body. A deer is instantly trained by a single contact with a Wireless Deer Fence unit, a deer thereafter associates the discomfort of the shock, not only with the area, but also with the smell of the perfumed oil used by the device. The sense of smell is very basic and the association of the discomfort of the shock of the perfumed oil will lead to a profound learning experience for the deer and it will not re-enter the area when it smells the devices.

Wireless Deer Fence Satisfaction Guarantee:

The Wireless Deer Fence will provide satisfactory deer control or you can return it to us and we will immediately refund your purchase price plus the postage to return the devices to us. If any device is found to be defective within one year of purchase, we will replace it with two units. Our liability to refund of the purchase price and return postage or replacement of the device as stated. All other liabilities are excluded.
